

International Association of Marine Investigators, Inc

www.iamimarine.org

Greetings from your President,

As we wrap up the fall and start into the winter season your IAMI Board of Director's are busy with the upcoming conference to be held in Galveston, Texas January 10th through the 13th. This year will be the 20th anniversary of NAMI/IAMI and we hope for a great turnout at the seminar to celebrate our anniversary. The agenda for the training seminar is complete and we are ironing out the final details to make this conference a success.

What is the success we are seeking? To get our training into the hands of those who come in contact with vessels and marine related equipment. Along with the knowledge gained, attendees will also have numerous networking opportunities which establish contacts all over the world. This allows us to combine resources and bring cases to a successful conclusion which is what this organization was established for 20 years ago. I challenge every IAMI member to reach out to others in the marine field and promote IAMI to those who can utilize our training and networking opportunities. The time to do this is now, so that new members can benefit from our upcoming annual training. If each of us set a goal to get one new member, we would increase our investigator resources by 100%. I hope to see you in Galveston, and I look forward to you introducing your new member(s) to the conference attendees.

Have a safe holiday season and a Merry Christmas to all.

Sincerely

Michael H. Smith
President
